CULTURE SCHOLARS AND HONORARY SCHOLAR 2021

SOPRANO AND CONDUCTOR BARBARA HANNIGAN

Motivation:

The Canadian soprano and conductor, Barbara Hannigan, has attracted new listeners to classical and contemporary music, with her unique combination of virtuosity, scenic charisma and artistic courage. For a new generation of singers

and musicians, she is not only a role model, but also an active and generous co-creator through her two mentor projects *Equilibrium Young Artists* and *Momentum: Our Future, Now*.

Hannigan's repertoire is impressive. She has premiered over 80 new works, many composed directly for her. In Gothenburg, she has made a strong impact with several stunning programs, including performances of Stravinsky's opera, *The Rake's Progress*. Since 2019, she is Principal Guest Conductor at the Gothenburg Symphony Orchestra.

For innovative interpretations, uncompromising commitment and an artistry in constant development, Barbara Hannigan is awarded a 2021 scholarship from the Sten A Olsson Foundation for Research and Culture.

ARTIST EMANUEL RÖHSS

Motivation:

Emanuel Röhss explores the possibilities of space to create fiction by unifying architecture, ornaments and visual art. His creative process takes place where sculpture, installation and moving images meet, but materials and medium are allowed to change depending on the specific conditions of the site.

Decorative elements are detached from buildings or cinematic sequences; reborn as scenography and rebuilt into new worlds. With ambiguous installations, the viewer's experience of the surroundings changes and a borderland is established, with room for cultural memories and subconscious layers.

For an artistry that transforms space, stretches the boundaries of perception, and expands artistic expression, Emanuel Röhss is awarded a 2021 scholarship from the Sten A Olsson Foundation for Research and Culture.

HONORARY SCHOLAR

ACTRESS AND PRODUCER ALICIA VIKANDER

Motivation:

Alicia Vikander's unique ability to form and give depth to the characters she portrays has led to her meteoric rise from her formative years in Gothenburg to the absolute top tier of the international film world.

With her direct and disarming appeal, she has portrayed a wide variety of characters, including royal yearning, tortured artistry, action heroines and freedom-seeking humanoid robots.

With award-winning roles in films such as *Pure*, *A Royal Affair* and *The Danish Girl*, she has reached a broad audience and established herself on the global film scene, where she is now firmly established as one of film history's great Swedish actors.

For her artistic presence and brilliance, her intense and nuanced role interpretations, Alicia Vikander is awarded the 2021 honorary scholarship from the Sten A Olsson Foundation for Research and Culture.
